The Government College, Mangalore, is affiliated to the University in groups (i) (Mathematics, Physics and Chemistry), (ii) (Natural Science, Physics and Chemistry), and (iii) (History and languages) of the Intermediate courses of study.

In August last the Director of Public Instruction requested sanction to the employment of a demonstrator in the college from the 1st September 1926. He explained the necessity for the demonstrator as follows:—

> "The Principal of the college reports that the present strength of the Intermediate classes in groups (i) and (ii) totals 156 as against 126 last year and that it is found difficult for the assistant lecturers in Physics and Chemistry to supervise adequately the practical work of the students in the two laboratories even with the existing practice of two students working together at one experiment. The Principal further states that the Physics and Chemistry assistant lecturers are now each allotted thirteen periods of work a week in addition to the correction of 156 observation and record books of the students, and that additional assistance is necessary to carry on the science work of the college efficiently."

2. The Government have sanctioned the employment of the demonstrator till the end of the current college year.

3. In view of the large increase in the strength of the classes and the need for giving relief to the assistant lecturers, it is recommended that the continuance of the post in future years may be sanctioned. As in other Government Arts Colleges, the post will be on a temporary footing.
